

Technical Data

Compressed air supply

Supply pressure.....	2 to max. 10 bar*
Consumption	2 to 4 m ³ /minute *
Device connection	1" external thread
Supply hose size	3/4" minimum
Safety valve.....	10 bar opening pressure
Required air quality.....	oil-free, dust-free, dew point preferably below -3° C

Water supply

Supply pressure.....	max. 12 bar*
Consumption	0,5 to 1,5 litres/minute*
Device connection	3/4"
Supply hose size	1/2"

Loudness

(dependent on used nozzle) approximately 90 to 100 dB
Required hearing protection against noise levels of 90 to 128 dB (e.g. Peltor H7A)

General data

Weight of blasting pistol.....	2 kg
Total weight	120 kg

* dependent on type of use and the used nozzle
